

ADEJORO RAYMOND OLAOTAN

Senior Business Analytics Manager | Strategic Data Leader | Growth & Product Analytics

Lagos, Nigeria | raydey04@gmail.com

EXECUTIVE PROFILE

Strategic Business Analytics Leader with 6+ years driving data enabled growth, product optimization, and cross functional analytics initiatives at enterprise scale. Proven track record building analytical frameworks that influenced multi-million naira revenue decisions, establishing measurement standards across commercial and operational functions, and partnering with executive leadership to translate business strategy into actionable insights.

Core Expertise: Building analytics centres of excellence • Leading experimentation culture • Scaling insights infrastructure across Product, Commercial and Operations • Executive stakeholder management • Team development and mentorship • Data-driven decision frameworks

Objective: Seeking Senior Manager role to leverage deep expertise in analytics strategy, team leadership, and business partnership to drive enterprise level transformation and measurable business impact.

PROFESSIONAL EXPERIENCE

IKEJA ELECTRIC | Lagos, Nigeria

Nigeria's Largest Electricity Distribution Company | 2M+ Customers

Business Data Analyst (Analytics Lead)

January 2022 - Present

↑ *Promoted from Data Analyst (November 2019 - December 2021)*

LEADERSHIP & STRATEGIC IMPACT

- Lead analytics function supporting 3 critical business units (Commercial Operations, Customer Service, Finance), partnering with VP level stakeholders to define KPI frameworks, measurement standards, and strategic priorities for data driven decision-making across the organization
- Established company-wide experimentation methodology and A/B testing framework, training 15+ cross-functional team members (Product, Commercial, Marketing) and executing 8+ validated experiments that directly informed pricing strategy and customer engagement initiatives
- Mentor and develop 2 junior analysts through structured competency development program, improving team SQL proficiency by 60% and reducing ad-hoc reporting dependency by 35% through self service analytics enablement

ANALYTICS INFRASTRUCTURE & EXECUTIVE REPORTING

- Architected executive analytics infrastructure reducing strategic reporting cycle time by 60% (from 5 days to 2 days), enabling C-suite to make time-sensitive pricing and operational decisions during peak demand periods directly contributing to 12% improvement in revenue capture
- Designed and deployed automated dashboard ecosystem monitoring 25+ critical KPIs across customer acquisition, payment performance, operational efficiency, and revenue metrics now used daily by executive leadership for strategic planning and operational oversight
- Drove standardization of measurement frameworks across 4 previously siloed departments, establishing unified KPI definitions and data governance standards that reduced executive decision latency by 40% and eliminated conflicting reports

BUSINESS IMPACT & REVENUE OPTIMIZATION

- Conducted deep-dive customer behaviour analysis across 500K+ active accounts, identifying ₦2.3M+ in revenue leakage from billing anomalies and payment processing inefficiencies led cross-functional remediation initiative recovering 73% within 6 months

- Engineered automated SQL data pipeline eliminating 120+ hours of monthly manual reporting effort, reallocating analytical capacity toward strategic initiatives that generated 8 new product insights adopted by commercial leadership
- Built predictive payment behaviour models analysing 18 months of transaction data, enabling proactive customer engagement strategies that improved on-time payment rates by 18% and reduced collection costs by ₦850K annually
- Delivered comprehensive market segmentation analysis identifying 3 underserved customer segments representing ₦4.5M in untapped revenue opportunity findings informed commercial strategy and targeted marketing campaigns

CROSS-FUNCTIONAL COLLABORATION & INFLUENCE

- Partner with Engineering teams to define data quality standards and instrumentation requirements, reducing data pipeline errors by 45% and improving trust in analytics outputs across the organization
- Collaborate with Finance leadership on monthly business reviews, strategic planning cycles, and annual budgeting processes, providing data-driven insights that shaped multi-million naira investment decisions
- Serve as analytics subject matter expert for organizational initiatives, translating complex technical concepts into executive-ready presentations and business recommendations for senior leadership

DATA ANALYST INTERN | QUANTUM ANALYTICS NG | Lagos, Nigeria

January 2022 - June 2022

- Delivered 30+ executive dashboards using Tableau, Power BI, and Excel for Fortune 500 clients, improving stakeholder visibility into operational performance and strategic KPIs
- Developed and implemented data quality and validation methodologies that increased report accuracy by 25%, establishing best practices adopted across 5-person analytics team
- Built predictive sales forecasting models achieving 85% accuracy, enabling clients to optimize inventory management and resource allocation decisions
- Extracted, cleaned, and analysed datasets exceeding 1M records using SQL and Python, reducing client data processing time by 40% through automation and workflow optimization

STRATEGIC ANALYTICS INITIATIVES & THOUGHT LEADERSHIP

REVENUE OPTIMIZATION FRAMEWORK | Lead Conversion Intelligence System

- Designed end-to-end lead conversion analytics framework analysing 45K+ quarterly records using PPDAC methodology, identifying that 37% of sales agent capacity was allocated to low-probability leads with <12% conversion rates.
- Performed comprehensive lead source benchmarking and engagement efficiency analysis, leveraging conversion rate metrics, workable rate optimization, and agent productivity modelling to identify high-ROI channels.
- Recommended data-driven channel reallocation strategy, early-stage lead scoring model, and SMS pre-contact experimentation roadmap projected to increase monthly conversions by 50-60 units (+22% conversion rate) while maintaining constant operational costs.

CUSTOMER EXPERIENCE ANALYTICS | Airline Passenger Satisfaction Intelligence

- Developed supervised machine learning classification models (Random Forest, Gradient Boosting) to identify key drivers of customer satisfaction, achieving 94% predictive accuracy and informing product experience optimization strategies.
- Engineered comprehensive data pre-processing and feature selection workflow using pandas and NumPy, handling 125K+ customer records and 23 behavioural and demographic features to enhance model robustness.
- Conducted exploratory data analysis identifying 5 critical satisfaction drivers (inflight Wi-Fi quality, online booking experience, seat comfort, baggage handling, departure delays), producing executive ready visualizations that supported strategic product investment decisions.

E-COMMERCE PERFORMANCE ANALYTICS | Brazilian Market Intelligence Study

- Analysed 100K+ orders across delivery performance, product category trends, and customer behaviour patterns, producing actionable insights to improve user engagement and logistics efficiency for major e-commerce platform.
- Identified that 93.23% of orders achieved on-time delivery, while pinpointing specific product categories (bed/bath/table, health/beauty) and delivery windows (Wed/Thu) most prone to delays recommendations reduced late delivery rate by 8%.
- Developed customer segmentation framework identifying 4 distinct buyer personas with differentiated engagement strategies, informing targeted marketing campaigns and personalized shopping experiences.

ENTERPRISE DATA MODELING | AdventureWorks Business Intelligence Framework

- Executed advanced SQL driven analytics including cohort analysis, customer segmentation, funnel optimization, and KPI modelling aligned with growth team experimentation methodologies
- Developed complex multi-schema queries analysing sales trends, workforce demographics, and product performance across 5+ normalized database tables, uncovering strategic insights
- Applied business intelligence principles to calculate key financial KPIs including commission structures, profit margins, and pricing tier optimization, enhancing strategic visibility into product profitability and resource allocation

TECHNICAL EXPERTISE & COMPETENCIES

LEADERSHIP & STRATEGY

Analytics Team Development & Mentorship • Executive Stakeholder Management & Influence • Cross-Functional Program Leadership • Experimentation Culture & Methodology • Data Governance & Quality Frameworks • Analytics COE Design • Change Management.

PRODUCT & GROWTH ANALYTICS

A/B Testing & Multivariate Experimentation • User Acquisition & Retention Modelling • Product Funnel Optimization • Opportunity Sizing & Prioritization • Post-Launch Impact Assessment • Cohort Analysis • Customer Segmentation.

ADVANCED ANALYTICS & MODELING

SQL (Complex Queries, Pipeline Automation, Performance Optimization) • Python (Pandas, NumPy, SciPy, scikit-learn, Matplotlib, Seaborn) • Statistical Modelling & Hypothesis Testing • Predictive Analytics & Forecasting • Machine Learning (Classification, Regression, Clustering) • Feature Engineering.

BUSINESS INTELLIGENCE & VISUALIZATION

Power BI (Advanced DAX, Custom Visuals, Enterprise Deployment) • Tableau (Dashboard Design, Calculated Fields, Data Blending) • Looker-Style Metrics Framework • Automated Reporting Infrastructure • KPI Design & Monitoring Systems • Executive Presentation & Storytelling.

DATA ENGINEERING & OPERATIONS

ETL Pipeline Development • Data Quality & Validation • Database Design & Optimization • Data Warehousing Concepts • API Integration • Cloud Analytics Platforms.

BUSINESS ACUMEN

Revenue Optimization & Pricing Strategy • Customer Behaviour Analytics • Sales & Marketing Performance • Growth Experimentation • P&L Impact Analysis • Strategic Planning & OKR Frameworks • Agile/Scrum Methodology.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (B.Eng.) | Electrical & Electronics Engineering

Federal University of Agriculture, Abeokuta | Ogun State, Nigeria | 2016
